- **Answer:** The Law of Conservation of Mass states that mass is neither created nor destroyed during a chemical reaction. The total mass of reactants equals the total mass of products.

- **Question:** How do you balance a chemical equation?

- **Answer:** To balance a chemical equation, add coefficients to the reactants and products to ensure the number of atoms for each element is equal on both sides of the equation.

History Example: The Civil Rights Movement

- **Question:** What was the significance of the Brown v. Board of Education case?

- **Answer:** The Brown v. Board of Education case was a landmark Supreme Court decision that declared racial segregation in public schools unconstitutional, marking a significant victory for the Civil Rights Movement.
