These cultural paradigms show that "be with" is integral to collective identity and societal functioning.

The Role of "Be With" in Modern Society

Digital Age and the Challenge of Connection

In a world saturated with social media, the act of being with has transformed dramatically. Virtual interactions can create a paradoxical sense of loneliness amid connectivity. The superficiality of

online engagements can hinder genuine presence and authentic connection.

Challenges include:

- Superficial interactions: Likes and comments replacing meaningful conversations.
- Distraction: Constant notifications preventing mindfulness.
- Emotional disconnection: An inability to be with difficult feelings or conflicts.

However, the digital realm also offers opportunities for deeper being with others through virtual support groups, mindfulness apps, and online communities that encourage authentic sharing.
