The Birth of an Innovative Concept

The story of the Linguaphone Group begins in the early 20th century, a period marked by rapid industrialization, technological innovation, and an increasing need for cross-cultural communication. The founders, Charles P. Hammond and Wilhelm Stier, recognized a significant gap in accessible, effective language learning methods for the general public. At a time when traditional classroom instruction was limited to the elites and often inaccessible to ordinary people, Hammond and Stier envisioned a portable, self-study system that could democratize language acquisition.

The Inception of Audio-Lingual Methodology
