Key Concepts and Their Corresponding Answers

1. Types of Investments

Question: What are the main types of investments discussed in Lesson 13?

Answer:

The main types of investments covered include:

- Stocks: Shares of ownership in a company, offering potential for high returns but with higher risk.
- Bonds: Debt instruments issued by governments or corporations that pay fixed interest over time, generally considered safer than stocks.
- Mutual Funds: Pooled investment vehicles that combine money from multiple investors to buy diversified portfolios of stocks, bonds, or other assets.
