Dear Dr. Smith,

Re: Referral for Mr. John Doe ? Chronic Lower Back Pain

I am pleased to refer Mr. John Doe, a 45-year-old male patient whom I have been treating for the past six weeks for chronic lower back pain. The purpose of this referral is to provide a summary of his condition, the treatments administered, and to seek your guidance regarding further management.

Patient Information:

- Name: John Doe
- DOB: 01/15/1978
- Gender: Male
- Contact: (555) 123-4567

Medical History:

Mr. Doe reports a history of intermittent lower back discomfort over the past two years, exacerbated by prolonged sitting and physical activity. He has no prior surgeries related to the back, but he has a history of mild lumbar scoliosis. He is not currently on any medications, and there are no known allergies.

Presenting Complaints:

Mr. Doe reports persistent dull ache in the lumbar region, rated 4-6/10 on pain scale, occasionally radiating to the left buttock. The pain worsens with sitting for more than 30 minutes and improves slightly with movement. He also reports muscle stiffness and limited range of motion in the lumbar spine.

Assessment Findings:

- Palpation revealed taut paraspinal and quadratus lumborum muscles.
- Restricted lumbar flexion and extension, with pain at end ranges.
- No neurological deficits observed.

Treatment Provided:

Over six sessions, I employed a combination of Swedish massage, myofascial release, and deep

tissue techniques focusing on the lumbar and pelvic muscles. Each session lasted approximately 60 minutes. Mr. Doe responded well, with noticeable reduction in muscle tension and pain levels decreasing to 2-3/10. He was advised to perform stretching exercises and maintain ergonomic practices.

Recommendations:

Given the chronic nature of his symptoms and muscular findings, I recommend further assessment by a medical professional, possibly imaging, to rule out structural issues. Continued physiotherapy or chiropractic care might be beneficial. It is also advisable for Mr. Doe to consider a tailored exercise program to strengthen core muscles and improve flexibility.

Precautions:

Please be aware that Mr. Doe experiences discomfort with excessive lumbar extension; thus, any movement or intervention should be approached cautiously.

Please feel free to contact me for further details or clarification. I am happy to collaborate in his ongoing care.

Sincerely,

[Your Name], LMT

Key Elements of an Effective Referral Thank You Letter

A well-constructed thank you letter should be personalized, sincere, and tailored to the specific referral. Here are the core components:

1. Personalized Opening

Begin with a warm greeting that references the referrer's name and the specific referral. Personalization shows genuine appreciation and attention to detail.

Example:

"Dear Sarah,"

"Thank you so much for referring John and Lisa to me. I truly appreciate the trust you've placed in my services."

2. Express Genuine Gratitude

Clearly state your appreciation for the referral. Be specific about how much their recommendation means to you.

Example:

"Your recommendation means a lot, and I'm grateful for your confidence in my ability to assist your friends."

3. Mention Details of the Referral (if applicable)

If appropriate, briefly acknowledge any information you received about the referral or the context of the introduction.

Example:

"I understand they're looking for a family home in the downtown area, and I look forward to helping them find the perfect fit."

4. Reiterate Your Commitment and Service Quality

Emphasize your dedication to providing excellent service, reinforcing the reason the referrer trusted you.

Example:

"I am committed to providing the same level of care and professionalism to John and Lisa that you experienced."

5. Offer to Return the Favor

Show openness to reciprocate or assist in any way, fostering ongoing mutual support.

Example:

"Please don't hesitate to reach out if I can be of assistance to you or anyone you know."

6. Close with Warmth and Professionalism

End with a friendly closing that leaves a positive impression.

Examples:

"Thanks again for your trust."

"Looking forward to staying in touch."

7. Sign Off with Your Name and Contact Info

Ensure your contact details are clear, making it easy for the referrer or referred client to reach out.

Dear Dr. Doe,

RE: Referral for physiotherapy assessment and management of Mr. John Smith

I am writing to refer Mr. John Smith, a 45-year-old male, for physiotherapy assessment and ongoing management following a left ankle fracture sustained three months ago.

Patient Background and Presenting Complaints

Mr. Smith reports persistent swelling and discomfort in his left ankle, particularly when weight-bearing. He describes the pain as a dull ache rated 4 out of 10 on the pain scale, which increases with activity. He has experienced limited range of motion and difficulty walking without discomfort. There is no history of recent trauma or infection.

Clinical Findings

On examination, there is visible swelling around the lateral malleolus. Palpation reveals tenderness

over the anterior ankle joint. Range of motion testing indicates dorsiflexion limited to 10 degrees (normal is approximately 20 degrees), and plantarflexion to 40 degrees. Strength testing shows 4/5 in dorsiflexion and plantarflexion. No signs of infection or skin abnormalities are observed. X-ray reports confirm healed fracture with residual joint stiffness.

Physiotherapy Assessment and Recommendations

Given the ongoing symptoms and reduced mobility, I recommend a comprehensive physiotherapy program focusing on:

- Pain management and swelling reduction through modalities such as ice and gentle mobilization.
- Range of motion exercises to restore joint flexibility.
- Strengthening exercises targeting ankle stabilizers.
- Gait training to improve walking efficiency.

Goals include reducing pain and swelling, increasing ankle mobility to at least 15 degrees of dorsiflexion, and restoring functional mobility for daily activities.

Please feel free to contact me should you require further information or discuss the patient's progress.

Yours sincerely,

In the competitive landscape of healthcare language assessments, the Occupational English Test (OET) holds a particular significance for physiotherapists seeking registration and employment in English-speaking countries. The writing component, often regarded as one of the more challenging sections, requires candidates to demonstrate their ability to communicate effectively in a professional context. A well-structured, clear, and contextually appropriate OET writing sample can significantly influence a candidate's overall score and, ultimately, their career prospects. This article delves into the essentials of physiotherapy OET writing samples, providing a detailed overview of what is expected, how to approach the task, and tips for crafting high-quality responses.

Understanding the OET Writing Sub-Test for Physiotherapists

The Purpose and Format of the Writing Task

The OET writing sub-test for healthcare professionals, including physiotherapists, typically involves composing a referral letter based on a case scenario. The primary objective is to assess the candidate's ability to communicate patient information accurately, professionally, and succinctly within a specified time frame—usually 45 minutes.

Key Features of the Writing Task:

- Scenario-Based: You are provided with a brief patient case, including history, symptoms, and relevant clinical findings.
- Audience: The letter is addressed to another healthcare professional, often a general practitioner (GP), specialist, or allied health worker.
- Purpose: To facilitate ongoing patient care by providing comprehensive, relevant, and clear information.
- Format: Usually a formal letter with a standard professional tone, structured into paragraphs covering specific content areas.

Understanding these elements is crucial because it guides the organization, language use, and content of your response.

Creating an effective writing sample hinges on including essential information and presenting it logically. Typically, a well-structured referral letter should encompass the following sections:

- History of Presenting Problem: Onset, progression, prior treatments, and relevant medical history.

Sample Physiotherapy OET Referral Letter: Breakdown and Analysis

While actual OET responses are personalized, analyzing a sample can illuminate effective strategies.

Sample Scenario Overview:

A 45-year-old male patient with persistent lower back pain following a lifting injury. You are a physiotherapist referring him to an orthopedic specialist.

Sample Extract:

Dear Dr. Smith,

I am referring Mr. John Doe, a 45-year-old male who has been experiencing persistent lower back pain for the past four weeks following a lifting incident at work. The pain is localized to the lumbar region, rated 6/10 on the pain scale, and worsens with activity.

On examination, there is tenderness over the lumbar paraspinal muscles, decreased range of motion in flexion and extension, and slight muscle weakness in the lower limbs. No neurological deficits were observed. The patient reports difficulty performing daily activities and has been unable to return to work.

Initial physiotherapy interventions included pain management techniques, core strengthening exercises, and education on proper lifting techniques. The patient responded gradually to treatment, with a reduction in pain severity to 3/10 and improved mobility.

Given the ongoing symptoms and functional limitations, I recommend further assessment, possibly imaging, and consideration of specialist intervention. Continued physiotherapy focusing on functional restoration is advised.

Sincerely,

Jane Doe, MSPT
