Metaphysics addresses questions about what exists and the nature of reality itself. It asks:

- What is real?
- Do minds and bodies exist separately (dualism) or as one (materialism)?
- Is there a universe beyond what we can perceive?

Key ideas to explore:

- Ontology: The study of being and existence.

- Identity and change: How do things remain the same over time? For example, is a person who changes physically still the same individual?

For teens, epistemology can be a tool for evaluating the credibility of information sources, especially in the age of social media.

Ethics examines what is right and wrong, good and bad. It helps teens navigate moral dilemmas and develop their sense of justice.

Major ethical frameworks:

- Utilitarianism: Actions are right if they promote the greatest happiness for the greatest number.
