Constructive Criticism Example:

> The sample size appears limited, which may affect the robustness of the conclusions. The authors should consider increasing the dataset or providing a power analysis to support the findings. Additionally, the methodology section lacks detail regarding the data collection process, making replication difficult.

Rejection Justification Example:

> While the topic is relevant, significant methodological flaws undermine the validity of the results. The absence of a control group and insufficient statistical analysis warrant rejection at this stage. The authors are encouraged to address these issues and resubmit.

Referee reports must adhere to ethical standards:

- Confidentiality: Protect the anonymity of authors and reviewers.

- Impartiality: Avoid conflicts of interest.
- Honesty and Integrity: Provide truthful, unbiased assessments.
