Manufacturers often design objects for limited lifespans, prompting a cycle of consumption that leads to environmental degradation.

2.2 Cultural Erasure and Homogenization

Global brands and mass-produced objects threaten local traditions and cultural specificity, leading to a homogenized material landscape.

2.3 Consumer Debt and Materialism

The pursuit of objects can lead to debt, stress, and a focus on material wealth over other values.

Conclusion: The Object Matter of American Life as a Reflection and Shaper of Society

Objects in American life are far more than utilitarian items; they are carriers of meaning, markers of identity, and catalysts for social change.
