Defining the Core Concepts

Developed by Daryl Siedentop and colleagues, the model emphasizes student-centered learning, role diversity (players, officials, coaches), and authentic competitions. Its goal is to foster a sense of belonging, responsibility, and enjoyment in sport participation.

Positive Sport refers to an approach that prioritizes positive interactions, fair play, respect, enjoyment, and personal development over merely winning or outperforming others. It aligns with the broader movement of positive psychology, aiming to cultivate positive emotions, relationships, and motivations within sports contexts.

Combining these concepts into a unified framework results in a pedagogical approach that emphasizes high-quality PE experiences rooted in positive, inclusive, and meaningful sporting activities.
