Who Was Dolores Cannon?

A Brief Biography

Dolores Cannon (1931-2014) was an American hypnotherapist, author, and speaker known for pioneering the use of regression hypnosis to access information from the subconscious mind. Who Was Dolores Cannon?

Before delving into her insights about the afterlife and the space between lives, it is essential to understand Cannon's background. Born in 1931 in Arkansas, Dolores developed an interest in

hypnosis early on. Over decades, she refined her techniques, developing a unique form of hypnotherapy known as Quantum Healing Hypnosis Technique (QHHT). Her work led her to explore past lives, karmic patterns, and the nature of consciousness.

Cannon authored numerous books, including The Convolutioned Universe series, Between Death and Life, and Keepers of the Garden. Her interviews with countless clients under deep hypnosis often revealed detailed accounts of the soul's journey after death, reincarnation cycles, and the transitional states that occur between lives.

Understanding the Between Life State: Cannon's Perspective

What Is the Between Life State?

According to Dolores Cannon, the "between life" state refers to a non-physical realm or dimension where the soul resides after physical death and before reincarnating into a new life. She described it as a highly organized, intelligent, and benevolent space where souls review their past experiences, select future lessons, and prepare for the next incarnation.

This state is not merely an empty void but a rich, vibrant environment filled with guides, loved ones, and a greater understanding of the soul's purpose. Cannon emphasized that this space allows for reflection, healing, and planning, serving as a crucial phase in the soul's evolutionary journey.

Key Features of the Between Life Realm

Based on her extensive sessions, Cannon identified several consistent features of this realm:

- Review of Past Life: Souls examine their previous incarnation, understanding their actions, lessons learned, and karmic patterns.
- Guides and Beings: Higher vibrational entities, such as guides or spiritual teachers, assist souls in their review and future planning.
- Choosing the Next Life: Souls often participate in a "life selection" process, where they consider lessons, challenges, and environments for their next incarnation.
- Healing and Integration: Emotional and spiritual healing occurs during this phase, helping souls resolve unresolved issues or traumas.
- Existence in a Non-Physical Form: The realm exists beyond space and time, characterized by pure consciousness and energy.

Methodology: How Dolores Cannon Explored the Between Life State

Quantum Healing Hypnosis Technique (QHHT)

Cannon's primary tool was QHHT, a form of guided hypnosis that induces a deep trance state. Clients under QHHT report access to their subconscious mind, which Cannon believed is a gateway to higher knowledge and past-life memories.

The process involves:

- Pre-session interview to understand the client's background and questions.
- Guided relaxation to induce a deep trance state.
- Prompting the client to access past lives and the between life realm.
- Asking specific questions to uncover details about the soul's journey, purpose, and future plans.
- Post-session debrief to interpret insights and experiences.

Cannon claimed that through this method, she could access detailed, verifiable information that transcended normal memory recall.

Interviews and Data Collection

Over her career, Cannon conducted thousands of sessions, meticulously documenting her clients' experiences. Her recordings and transcripts form the backbone of her published works. She observed remarkable consistency across different clients and backgrounds, which she interpreted as validation of the authenticity of these memories.
