E12	Hydraulic pressure low	Check hydraulic fluid levels, inspect pumps and valves	Warning
F03	Limit switch activated	Reset switch, verify correct operation	Minor

Note: Always refer to the specific model’s manual for accurate diagnosis.

Preventive Maintenance to Minimize Error Codes

Regular maintenance plays a vital role in reducing the incidence of error codes:

- Routine Inspections: Check sensors, wiring, hydraulic lines, and mechanical components regularly.
- Calibration: Ensure sensors and control systems are properly calibrated.
- Hydraulic System Care: Maintain hydraulic fluid levels and replace filters periodically.
- Software Updates: Keep the crane’s control software updated to benefit from bug fixes and improvements.
- Operator Training: Ensure operators are trained to recognize and respond to error codes appropriately.

Implementing these measures can significantly reduce unexpected faults and prolong the lifespan of your Liebherr crane.
