How the Mark Scheme is Structured

The mark scheme is usually organized into the following sections for each question:

1. Mark Bands and Level Descriptors

Examiners use level descriptors to differentiate between varying depths of understanding:

- Level 1 (Basic): Limited knowledge; simple statements; no analysis.
- Level 2 (Satisfactory): Basic understanding; some application; limited analysis.
- Level 3 (Good): Clear understanding; appropriate application; good analysis.
- Level 4 (Excellent): Comprehensive understanding; insightful application; well-developed analysis.

Each level has clear criteria outlined in the mark scheme, guiding examiners on how to allocate marks based on answer quality.

- Correctly identifying causes (externalities, public goods)
- Explaining the impact on welfare
- Suggesting appropriate government interventions

3. Model Answers and Exemplars

Sample answers provided in the mark scheme serve as benchmarks for full, partial, or minimal

responses. They help ensure consistency and fairness.

The paper often includes various question formats. Here's how the mark scheme guides marking for each type:

1. Definition Questions

- Criteria: Accurate, concise definitions using correct terminology.
- Marking tip: Full marks awarded for precise definitions; partial for vague or incomplete answers.

2. Diagram-based Questions

- Criteria: Correctly drawn diagrams, labeled appropriately, with relevant analysis.
- Marking tip: Diagrams are usually awarded marks for accuracy and relevance; explanation of the diagram is equally important.

3. Application and Analysis Questions

- Criteria: Application of concepts to given scenarios, with logical reasoning.
- Marking tip: Explanations should be supported by diagrams where applicable, with balanced analysis.

4. Evaluation Questions

- Criteria: Balanced discussion, weighing pros and cons, considering different perspectives.
